PROGRAMS OF THE DEPARTMENT
The program of courses in political science aims to promote understanding of the nature of political relationships. The department offers a major and minor in Political Science. In addition, the Department of Political Science offers combined majors with the Department of Economics, the Department of Mass Communication and Communication Studies, and the Department of Geography and Environmental Planning. Students wishing to major in both Political Science and Economics; Political Science and Geography and Environmental Planning; Political Science and Mass Communication; or Political Science and Communication Studies can obtain a combined major which certifies that the requirements of both departments have been completed. Students should refer to the section on combined majors listed below. The major prepares students for advanced study and provides the foundation for careers in public administration, law, public relations, business and research, and urban and regional planning.

The Prelaw Advising Program is administered by the Department of Political Science.

TRANSFER CREDIT POLICY
Students who transfer to Towson University in senior standing are expected to complete a minimum of 15 units of upper-division political science courses. Those who transfer below senior standing normally will be expected to complete 21 units of upper-division political science courses at Towson University.

CAREERS IN POLITICAL SCIENCE
Political Science majors generally prepare themselves, at the undergraduate level, for careers in law, government (federal, state and local), service in public and private interest groups, business, and journalism and the media, as well as research and teaching at various levels of the education system.

STUDENT OPPORTUNITIES
Activities
In addition to its academic curriculum, the department offers opportunities providing a broad range of related experiences. Classes travel to Annapolis and Washington, D.C., to observe first-hand the political workings of government. Political Science majors are given the opportunity to edit the Towson Journal of International Affairs, one of the few undergraduate academic journals in the United States.

Internships
An integral part of the Political Science curriculum is the opportunity for students to participate in an internship in their junior or senior year. Students are placed in all branches of government and at all levels of government. Placements with the Maryland General Assembly or a member of Congress are most common.
