---

Towson University offers many opportunities for close student-faculty collaboration and promotes a supportive environment that encourages exploration and personal growth. A student-faculty ratio of approximately 15:1 allows students to interact frequently with their professors. Almost 80% of TU's more than 900 full-time instructional faculty have earned the highest degree of academic preparation in their fields from some of the finest colleges and universities in the world. Many faculty members are recognized nationally and internationally for their published works and honors. Small classes and the tradition that all instructors—including most full professors—teach introductory courses help to enhance the strength of Towson University's faculty and underscores their dedication to excellent teaching.

The following faculty list includes name, rank, department, year of appointment, and highest degree and institution where it was earned.
