Towson University takes pride in the breadth and depth of its undergraduate academic programs. Students acquire a broad background in the liberal arts and sciences based on the Core Curriculum requirements, upon which they build concentrated study in one subject, their major field of study. They may select courses ranging from the traditional to the contemporary. This undergraduate foundation prepares them to take their place in the professional world or in graduate studies.

The university’s seven undergraduate colleges—the College of Business and Economics, the College of Education, the College of Fine Arts and Communication, the College of Health Professions, the Honors College, the College of Liberal Arts and the Jess and Mildred Fisher College of Science and Mathematics—offer more than 60 undergraduate majors leading to the baccalaureate degree. The university also offers specialized programs, including minors, concentrations, tracks, combined majors and double majors.
