The Master of Education degree in Elementary Education is an advanced curriculum and instruction program that provides skills needed for teachers to navigate an ever more complex school and social system. The program is designed for those involved in instructional and curricular decision-making in schools and districts and those committed to quality professional growth. Course, program goals and learner outcomes are based on the professional setting to ensure transfer of theory to practice.

Requirements

Admission Requirements

Application deadlines and a full listing of materials required for admission can be found on the website.

Learning Outcomes

The goals and objectives of the degree program are based on MSDE Professional Development Standards and the core propositions endorsed by the National Board for Professional Teaching Standards. The areas addressed by the standards are reflected in the required and elective courses.

The program of study helps the student achieve the following goals:

- a. Develop advanced capabilities in design thinking, creative curriculum design and innovative data-focused instruction.
- b. Understand the diverse nature of learners, family and community and develop advanced capabilities in (inter)cultural competency.
- c. Assume specialty roles in areas identified as important to the school community and the changing educational landscape.
- d. Use technology and media to enhance teaching and learning.
- e. Understand and use appropriate assessment and evaluation within the teaching process.
- f. Engage in scholarly activities including action inquiry to promote student achievement as well as one's own professional development.
- g. Lead and/or participate in collaborative activities with others such as peers, colleagues, teachers, administrators, community organizations and parents.
- h. Think, reflect, and critically analyze the educational processes and professional practices.
