The Master of Education degree in Elementary Education is an advanced curriculum and instruction program that provides leadership skills needed for teachers to navigate an ever more complex school and social system. The program is designed for those involved in instructional and curricular decision-making in schools and districts and those committed to quality professional growth. Course, program goals and learner outcomes are based on the professional setting to ensure transfer of theory to practice. The program of study helps the student achieve the following goals:

- Develop advanced capabilities in cultural competency, design thinking, action inquiry, equity, creative curriculum design and innovative data-focused instruction.
- Understand the diverse nature of learners, society and the impact on learning.
- Assume specialty roles in areas identified as important to the school community and the changing educational landscape.
- Use technology and media to enhance teaching and learning.
- Understand and use appropriate assessment and evaluation within the teaching process.
- Engage in scholarly activities to promote student achievement as well as one's own professional development.
- Think, reflect, and critically analyze the educational processes and professional practices.

The goals and objectives of the degree program are based on MSDE Professional Development Standards and the core propositions endorsed by the National Board for Professional Teaching Standards. The areas addressed by the standards are reflected in the required and elective courses.
