The Master of Education degree in Elementary Education is an advanced curriculum and instruction program that promotes the skills and expertise of experienced educators for grades 1-8. The program is designed for those involved in instructional and curricular decision-making in schools and districts and those committed to quality professional growth. Course and program goals and learner outcomes are based on the professional setting to ensure transfer of theory to practice. The program of study helps the student achieve the following goals:

• Develop advanced competencies in curriculum development, instructional design, and evaluation of curriculum and instruction.
• Develop an understanding of the diverse nature of learners, society and the impact on learning
• Assume leadership roles in curriculum and instruction in the education profession
• Use technology and media to enhance learning
• Understand and use appropriate assessment and evaluation (assessment literacy)
• Engage in scholarly activities to promote student achievement
• Think and reflect critically about educational processes and professional practice (essential dispositions)

The goals and objectives of the degree program are based on MSDE Professional Development Standards and the core propositions endorsed by the National Board for Professional Teaching Standards. The areas addressed by the standards are reflected in the required and elective courses.
