 Email: ait@towson.edu

The Post-Baccalaureate Certificate in Database Management Systems covers the study, design and development of database systems, and discusses the major issues in managing a large database system. This program provides graduate-level education in IT for students wanting to make progress in the high-tech work environment or preparing to enter the high-tech work force. This course of study can be completed as a stand-alone graduate certificate or applied to the M.S. degree program in Applied Information Technology. The program is intended for students who have a bachelor's degree in a computing-related field and are working as programmers, software engineers, system analysts, etc., who will enter the program for advanced study.

The program may also be of interest to persons who:

- Do not have a bachelor's degree in the field, but are currently employed in the IT field and are seeking additional academic studies for professional growth or to advance their career.
- Have a bachelor's degree in a discipline other than IT who are seeking preparation for careers in this field.

Requirements

Admission Requirements

Application deadlines and a full listing of materials required for admission can be found on the website.

Certificate Requirements

Code	Title	Units
AIT 600	INFORMATION TECHNOLOGY INFRASTRUCTURE	3
AIT 610	SYSTEMS DEVELOPMENT PROCESS	3
AIT 632	DATABASE MANAGEMENT SYSTEMS	3
AIT 732	ADVANCED DATABASE MANAGEMENT SYSTEMS	3
AIT 735	CASE STUDIES IN DATABASE MANAGEMENT SYSTEMS	3
Total Units		15

Learning Outcomes

- Understand the information technology infrastructure and its place and value in today's business.
- Work effectively in teams and communicate effectively, both orally and in writing.
- Use their proficiency to solve a variety of problems.
- Prepare, present and develop proposals and solutions for today's governmental and industrial needs.
