The program prepares graduates for either doctoral programs or a variety of geographically oriented applied positions in private business and government agencies. The program develops a broad knowledge of physical and human geography as well as the ability to analyze and synthesize spatial data and information from a number of fields.

The Master of Arts in Geography and Environmental Planning has two options: Thesis and Non-Thesis.

Combined Bachelor’s to Master’s Program
Students may also earn an M.A. in Geography and Environmental Planning through the Department of Geography and Environmental Planning’s combined bachelor’s and master’s program (http://catalog.towson.edu/undergraduate/liberal-arts/geography-environmental-planning/combined-bachelor-master-geography-environmental-planning). This program allows students to complete their undergraduate and graduate degrees in a shorter time frame.

All students enrolled in the graduate program must demonstrate proficiency in research. Students may choose a thesis or non-thesis option. All non-thesis students must complete a final research project.

Please see the Undergraduate Catalog for information on the combined bachelor’s-master’s program.

Admission Requirements

• A bachelor’s degree from a regionally accredited college or university** with a minimum of 9 units in geography, with at least a 3.00 GPA in all geography courses, is required for full admission.
