The interdisciplinary and multidisciplinary graduate program in Women's and Gender Studies provides students with a solid academic foundation to pursue their unique goals. As the only applied master's program in Women's and Gender Studies in Maryland and the only Women's and Gender Studies master's program in Baltimore, the program emphasizes applied research methods and skills, preparing students for careers in a variety of public and private organizations both national and international, for-profit and nonprofit. It also prepares students to enter doctoral programs in a variety of fields.

The master's degree in Women's and Gender Studies is set in the liberal arts tradition and explores feminist paradigms and scholarship. Intended as either a capstone interdisciplinary experience or one which bridges undergraduate learning and a doctoral program, the M.S. in Women's and Gender Studies captures a multi-faceted intellectual experience, including both theoretical and experiential content. Requiring 36 earned graduate units, the program requires a core component and offers three concentration options: 1) Women, Health and Sexuality, 2) Women in an International Context, and 3) Women, Leadership and Public Policy. The program includes a Culminating Experience with three options: a) a thesis, b) an internship or c) a two-course option with portfolio. The thesis option is recommended for students who intend to pursue a doctoral degree.

Please note that only one degree in Women's and Gender Studies can be awarded; students who complete more than one concentration in Women's and Gender Studies will not receive two different degrees.

Accelerated Bachelor's-Master's Program

Students may also earn the M.S. in Women's and Gender Studies through the accelerated bachelor's to master's program in Women's Studies (http://catalog.towson.edu/undergraduate/liberal-arts/womens-gender-studies/combined-bachelor-master-womens-studies/), which is designed to allow students to complete accelerated undergraduate and graduate degrees. This program is designed for the three existing tracks in Women's Studies: Women, Leadership and Social Change; Women in International Context; and Women, Health and Sexuality. This accelerated degree program allows qualified undergraduate Women's Studies majors to pursue an accelerated bachelor's and master's in Women's Studies.

Students enrolled in the accelerated bachelor's and master's program in Women's Studies may elect to follow one of three Culminating Experiences already in place: Thesis, Internship or Two-Course Option. The degree requirements are the same as those for the M.S. program in Women's Studies with the following exception: the accelerated bachelor's and master's requires 3 fewer units of planned electives. All M.S. students in this program, regardless of their plan, are expected to demonstrate a proficiency in research and meet the requirements of all learning outcomes listed for both undergraduate and graduate programs.

Advising

During the student's first term, the graduate program director acts as the student's adviser. During that time, the student's academic program is discussed, developed and drafted. At the end of the first term, the student is transferred to a permanent adviser.

Admission Requirements

- A bachelor's degree from a nationally accredited college or university* (as certified by an official transcript) with a minimum undergraduate grade point average of 3.00, and 2.75 for conditional admission. GPA calculations for admission are based upon the last 60 units of undergraduate and post-baccalaureate study.
- Nine units earned at the baccalaureate level in Women's and Gender Studies and/or the Social Sciences (Anthropology, Sociology, Geography, Political Science, Psychology, Economics or a social science-based interdisciplinary course). Three (3) of these nine (9) units must include one course in Women's and Gender Studies. Students with no prior course work in Women's and Gender Studies must enroll in either WMST 231, which is an introduction to Women's and Gender Studies, or WMST 337, a course on feminist theory. Given these two courses (WMST 231 and WMST 337) are undergraduate-level courses, students will not receive graduate credit for completion of this requirement. An applicant who has not taken an undergraduate course in Women's and Gender Studies but who has relevant applied experience including, but not limited to, work in a women's center, work for a women's organization, or work on a project focusing specifically on women's and gender issues, may be exempt from the requirement.
- A detailed essay of four to five, double-spaced pages emphasizing the applicant's specific plans for focused graduate study within the selected concentration, including discussions of 1) projected career goals, 2) prior academic and/or work experiences (volunteer or paid), and 3) how these relate to anticipated success in the intended program of study and projected career goals.
- Two letters of recommendation, including at least one from a college/university instructor from whom the applicant has learned from in a course setting, accompanied by a completed Graduate Program Recommendation Form.
