Towson University Continuing Education jump-starts careers through professional certification courses that address critical skill gaps in high growth industries. We offer courses that prepare students for certifications to jump start careers in business management, information technology, health and medical administration, and digital marketing. We also provide professional development for teachers through the development and deployment of curriculum and support in partnership with the Maryland State Department of Education. All courses are designed for working professionals who want to build on existing skills and explore new career opportunities.
