

MAJOR IN BUSINESS ECONOMICS

Requirements

Students in the Business Economics major complete the shared courses in Business Administration (46-47 units) and 21 units in the major. Note that students interested in Economics can choose either Business Economics or the Major in Economics (but not both).

The Business Economics major is a screened program. Please see the admission requirements for additional information. Students in this program will not be allowed to take majors only courses until they have successfully completed all of the PBUA courses and been admitted to the major.

Total Units 120		

1

Excluding ECON 306, ECON 309, ECON 310, and ECON 313.

Learning Outcomes

Profile of a CBE Graduate

As a premier school of applied business learning, the College of Business and Economics prepares its graduates to achieve excellence in their professional careers. Rigorous academic studies and hands-on business experience—all subject to strict measures of performance— work in combination to **develop** the foundation for success, **connect** students with the professional community and **transform** students who will have a positive impact in and beyond Maryland.

Graduates of Towson University's College of Business and Economics will:

Apply Business Knowledge in the Context of Professional Employment

- Demonstrate knowledge of business concepts and practices
- Successfully complete a quality, mentored, reflective professional experience in preparation for future employment

Communicate Properly and Effectively

- Develop and deliver professional communications appropriate to audience, purpose, and medium, demonstrating clarity, coherence, and professional tone across diverse business contexts

Apply Critical Thinking and Problem-Solving Skills to Organizational Decision Making

- Formulate strategies, and identify issues with implementing these strategies
- Develop comprehensive, justified conclusions that result from systematic application of relevant information and decision criteria to decision alternatives within a realistic organizational decision context

Practice Creative Thinking

- Practice creative ideation

Use Technology Effectively in Business Settings

- Demonstrate capability in using analytical and AI-driven software tools to support decision-making and problem-solving

Work Effectively Toward Achieving Common Goals within Diverse Teams

- Guide teams, as leaders and followers, to achieve team goals while maintaining group cohesion, follower satisfaction and efficient operations
- Treat others with respect and show sensitivity to their views, values, cultures and customs

Distinguish Between Ethical and Unethical Conduct in the Professional Lives

- Determine how ethical conduct of managers affects individuals' motivation and organizations' performance
- Demonstrate knowledge of the ethics and responsible use of AI
