Mission Statement
The mission of the Teacher Education Unit is to inspire, educate and prepare facilitators of active learning for diverse and inclusive communities of learners in environments that are technologically advanced.

Programs of the Department
The Department of Elementary Education offers the following programs of study: the major in Elementary Education, the major in Elementary Education with eligibility for Early Childhood certification, the Master of Arts in Teaching, and the Master of Education in Elementary Education. For more information about the master’s programs, consult the Graduate Catalog.

The Elementary Education faculty believes that well-prepared elementary school teachers are facilitators of active learning. As reflective practitioners, teachers engage students in the learning process by utilizing research findings and experience-based strategies and practices to make sound, educational decisions. These decisions should be based upon an articulated education philosophy, a thorough knowledge of students’ strengths and needs, and an analysis of various learning environments. The Elementary Education Program fulfills the goal of preparing such teachers through a program based on a broad liberal arts background and professional preparation, including a planned sequence of courses and field experiences in the Baltimore metropolitan area.

The major in Elementary Education leads to certification to teach grades 1 through 6. The program provides classroom and laboratory experiences that prepare students for beginning teaching in elementary schools. Candidates who desire a middle school placement must pass the Middle School Praxis subject matter test in the content discipline.

The goals and objectives of the Department of Elementary Education reflect the mission and vision of the College of Education. Students in the program are provided the knowledge, skills and dispositions identified by the Maryland State Department of Education (MSDE), the Interstate Teacher Assessment and Support Consortium (INTASC) principles, and the Association for Childhood Education International (ACEI) standards for professionals in elementary education. Students are required to demonstrate mastery of the performance-based outcomes in order to exit the Elementary Education Program.

Declaring The Elementary Education Major
Students interested in becoming Elementary Education majors must first gain admission to Towson University. Admission to the university does not guarantee admission to the Elementary Education program. Students declare majors online at http://www.towson.edu/registrar/Registration/. On the left hand side of the screen select Changing your Major/Minor. Select Change of Major/Minor form and then enter your Towson University username and password. The declaration of major should appear. Complete all questions asked. You will receive an email with the name, location, and email address of your Education adviser.

All students enrolled in a Teacher Education program are required to undergo a criminal background check before participating in any internship placement.

Elementary Education majors must have a minimum 2.75 GPA to apply for the Professional Internships. However, applicants may be ranked according to cumulative GPA if the number of applicants exceeds course availability. Therefore, the GPA necessary for admission may exceed the minimum 2.75. Elementary Education majors must maintain a minimum 3.00 cumulative GPA to remain enrolled in the Professional Internships and must earn a 2.00 or C grade in all courses in the Professional Internships.

Students must submit their Application for the Professional Internships to the Department of Elementary Education. Transfer students who are pursuing an Associate of Arts in Teaching degree from a Maryland community college should obtain the Application for the Professional Internships from their community college teacher education coordinator and attend a mandatory orientation meeting on the Towson University campus.

Reflecting the Professional Education Mission and Vision statements, students are assigned by their department (in coordination with the Center for Professional Practice) to field and clinical placements that are diverse and inclusive. Placements are made that enable the Teacher Education Unit to meet state and national accreditation mandates. All professional year placements will be in identified Professional Development Schools, based on ongoing and systematic PDS partnership agreements with school systems. These mandates and the size and scope of the education program do not permit personal preference or geographic convenience in placements.

Students in Levels III and IV of the Elementary Education Program in fall term will begin the term when elementary school teachers are required to be in their classrooms (generally mid-August). This may be before the start of the term at Towson University. Students in Level IV of the Elementary Education Program in spring terms will begin the term on the Towson University calendar. Students in Level III and Level IV of the Elementary Education Program will follow the school district’s spring break for their internship classes, and will follow the Towson University calendar for their on-campus classes.
