

SPECIAL CONDITIONS

Eligibility for need-based aid is based on the previous income and other financial data collected on the Free Application for Federal Student Aid (FAFSA). If you experienced a decrease in income of 20 percent or more compared to that FAFSA data, please submit our "Special Conditions Form" to request a reevaluation of your financial need based on your total estimated income for the current tax year.

If you have had "Day Care Expenses or K-12 private school costs, you can ask us to reevaluate your financial need based on those expenses.

For these forms and instructions, see Special Conditions.
