COMBINED DEGREE PROGRAMS

Towson University offers several combined programs which allow a student to obtain multiple degrees in less time than if the degrees were taken individually. These combined programs typically take the form of either an undergraduate combined degree program in which students obtain two bachelor’s degrees, or a program which combines a B.S degree and M.S. degree.

Physics

• Bachelor of Science in Physics and Master of Science in Computer Science (http://catalog.towson.edu/undergraduate/fisher-science-mathematics/combined-degree-programs/physics-bs-computer-science-ms)
• Bachelor of Science in Physics and Master of Science in Applied Physics (http://catalog.towson.edu/undergraduate/fisher-science-mathematics/combined-degree-programs/physics-bs-applied-physics-ms)
• Dual Degree Engineering Program with University of Maryland, College Park (http://catalog.towson.edu/undergraduate/fisher-science-mathematics/combined-degree-programs/engineering-umcp)
