Departmental Honors Program

The Department of Physics, Astronomy and Geosciences (https://www.towson.edu/fcsm/departments/physics), under the direction of Towson University’s Honors Board, offers a departmental honors program for students who demonstrate exemplary abilities in their discipline. Such students will work closely with faculty mentors in an individual program of research, directed readings, independent study and seminar. The student who completes an approved program will receive a diploma with the designation of Bachelor of Arts with Honors or Bachelor of Science with Honors, and Departmental Honors will appear on the transcript.

Criteria for Admission into the Department Honors Program

1. Completion of at least 60 units of courses.
2. Overall cumulative average of 3.25 or above and a 3.50 or above cumulative average in their major course requirements. Students below this threshold may appeal to the Department Honors Committee.

Contact the department for a list of detailed procedures for applying to the departmental honors program.

Department Activities and Awards

Research

Students are strongly encouraged to participate in research at TU or in summer research programs. Faculty advisers will assist students in finding a research project of interest. Undergraduate research and travel grants are awarded by TU and FCSM on a competitive basis to provide support for student research.

Internships

Majors are encouraged to participate in internship programs and receive academic credit. Internships may be undertaken in either the public or private sector. Internships must have a significant physics or geology component. At the completion of the internship, students are required to submit for evaluation a portfolio describing the work undertaken and give a public seminar. This portfolio and seminar will be evaluated by department faculty.

Student Organizations

Students in Physics, Astronomy, and Geosciences are encouraged to actively participate in the student based organizations within the department. These include the Geology Club, the Society of Physics Students, and the Secondary Education club. For many of these organizations, students are permitted to join the national organization and to obtain publications, services at reduced rates, grants and awards.

Departmental Awards

Departmental student awards are given annually for outstanding work in chemistry courses. These include:

- Edward L. Rubendall Physics Achievement Award - The awards were established in honor of Professor Emeritus Edward J. Rubendall by friends of the department. The awards are presented annually to outstanding junior and senior physics majors in the department.
- Geosciences Achievement Award - These awards are presented to two outstanding students in the Geosciences program. They must be of junior or senior standing.
- William F. Pelham Award - This award was established in honor of Professor Emeritus William F. Pelham by his friends at Towson University and in the greater Baltimore arts community. The award is presented to outstanding juniors in the department.
- Eddie Loh Graduate Scholarship - This award was established by Professor Emeritus Eddie Loh. It is given annually to two graduate students in the Masters in Applied Physics program.
- Eddie Loh Undergraduate Scholarship - This award was established by Professor Emeritus Eddie Loh. It is given annually to two undergraduate physics majors.
- American Mineralogist Undergraduate Award

- Major in Physics (http://catalog.towson.edu/undergraduate/fisher-science-mathematics/physics-astronomy-geosciences/physics)
  - General Physics Concentration
  - Applied Physics Concentration
  - Astrophysics Concentration
  - Computational Physics Concentration
- Major in Geology (http://catalog.towson.edu/undergraduate/fisher-science-mathematics/physics-astronomy-geosciences/geology)
• Minor in Geology (http://catalog.towson.edu/undergraduate/fisher-science-mathematics/physics-astronomy-geosciences/geology-minor)
