DEPARTMENT OF GEOGRAPHY AND ENVIRONMENTAL PLANNING

Liberal Arts Building 2210
Phone: 410-704-2973
Fax: 410-704-4702
Email: geography@towson.edu

Programs of the Department

The Department of Geography and Environmental Planning (https://www.towson.edu/cla/departments/geography) offers the following programs: majors in Geography and Environmental Planning and in Geography and Land Surveying; minors in Geography, in Geographic Information Sciences and in Meteorology; and the Master of Arts in Geography and Environmental Planning. The Department also participates in the Master of Education and Master of Social Science with emphasis in Geography. For more information about the graduate programs, consult the Graduate Catalog.

The Geography and Environmental Planning major is designed as a liberal arts program that explores how geographers carefully observe and measure human uses of the earth under diverse combinations of natural and cultural environments. Such academic preparation facilitates understanding of the changing world. The program prepares students for careers in business, management, government service, non-profit organizations, planning, public affairs and other professions, as well as for graduate school.

The major in Geography and Land Surveying is designed to meet the requirements of professionals in the field of land surveying. Courses taken in geography at Towson University will both complement those taken in surveying at the Community College of Baltimore County-Catonsville as well as provide additional skills of value to the professional surveyor. Completion of the four-year degree will shorten the time necessary to achieve professional licensure.

Internships

Majors have the opportunity to participate in the university’s Internship/Cooperative Education Program. This valuable adjunct to the educational program provides qualifying students with both academic credit and work experience with participating government agencies (federal, state and local) and private businesses. The internship offers the student a way of trying out a potential career choice prior to actual entry into the job market. Because the benefits of this experience are so positive, majors are strongly urged to participate in this program. Interns must work a minimum of 40 hours for each internship unit.

Special Departmental Programs

The department sponsors the Beta Delta Chapter of Gamma Theta Upsilon, an international geography honorary society. GTU holds lectures and presents films and speakers on topics in geography and environmental planning. All Geography majors are welcome to join.

Travel studies are available during the summer within the United States and to foreign locations.

The National Council for Geographic Education awards are given to academically outstanding graduating majors.

Qualified Geography undergraduates may be eligible, beginning in their junior year, to participate in an accelerated B.A./M.A. program in Geography. Interested students should contact the Geography Department for details.

Qualified undergraduates in the Geography minor program may be eligible, beginning in their junior year, to participate in an accelerated Geography Minor/M.A. program in Geography. Contact the department for details.

Departmental Honors In Geography

The department offers an honors program in geography. To be admitted, students must have a cumulative GPA of 3.25, and a 3.50 in the major, or consent of their faculty adviser. Students may be admitted to the program no sooner than the spring of their sophomore year.

The honors program requires a minimum of 40 units, including 6 to 9 units in seminars, directed readings and research projects. A senior thesis and oral defense are also required. Students should consult their faculty adviser for more information.

Careers In Geography And Environmental Planning

Faculty of the department are active in career advising. Occasional careers days are held, and the department participates in a regional network of career advising in geography. Graduates of the department are currently employed in a wide array of jobs such as environmental analysts and policy makers, GIS professionals, urban planners, teachers, professors, meteorologists, intelligence analysts with the Department of Defense, cartographers, statisticians, travel agents and many more.

The Master of Arts degree program in Geography and Environmental Planning is designed to prepare students for doctoral programs as well as for career opportunities in private business and public agencies. The program is oriented toward applied geography and allows students to specialize in geographic information science, human geography, area studies, or the management of environmental resources.

Graduate students in Geography and Environmental Planning are encouraged to take pertinent course work in other departments. Students may pursue either the thesis program (30 units and a 6-unit thesis) or the non-thesis program (36 units). Detailed information is given in the Graduate Catalog.

- Major in Geography and Environmental Planning (http://catalog.towson.edu/undergraduate/liberal-arts/geography-environmental-planning/geography-environmental-planning)
- Major in Geography and Land Surveying (http://catalog.towson.edu/undergraduate/liberal-arts/geography-environmental-planning/geography-land-surveying)
- Accelerated B.S./M.A. in Geography and Environmental Planning (http://catalog.towson.edu/undergraduate/liberal-arts/geography-environmental-planning/combined-bachelor-master-geography-environmental-planning)
Courses

GEOG 101 PHYSICAL GEOGRAPHY (3)
Introductory spatial analysis of fundamental terrestrial natural phenomena, including their impact on humanity. Emphasis on Earth planetary motions, weather and climate, landforms, soils and vegetation. Gen Ed II.A or Core: Biological & Physical Sciences.

GEOG 102 WORLD REGIONAL GEOGRAPHY (3)
Survey of world regions identifying geographical features and area and their significance. GenEd II.D or Core: Global Perspectives.

GEOG 105 GEOGRAPHY OF INTERNATIONAL AFFAIRS (3)
An introductory survey of the changing political map of the world with special emphasis on a geographical comprehension of the major regions of international cooperation and conflict. GenEd II.D or Core: Global Perspectives.

GEOG 109 INTRODUCTION TO HUMAN GEOGRAPHY (3)
Uses the analytical approach of social sciences in the study of institutions of human society to reveal spatial patterns in the responses of people to basic problems and needs. GenEd II.D or Core: Global Perspectives.

GEOG 110 HONORS INTRODUCTION TO HUMAN GEOGRAPHY (3)
Uses the analytical approach of social sciences in the study of institutions of human society to reveal spatial patterns in the responses of people to basic problems and needs. Emphasis on discussion and analyses of problems. Honors College course. GenEd II.D or Core: Global Perspectives.

GEOG 112 HONORS WORLD REGIONAL GEOG (3)
Survey of world regions identifying geographical features and area and their significance. Honors College course. GenEd II.D or Core: Global Perspectives.

GEOG 211 INTRODUCTION TO GEOSPATIAL TECHNOLOGY (3)
Introduction to most effective ways to record and communicate spatial information. Emphasizes geotechniques including digital cartography, remote sensing, GIS and GPS. Includes georeference systems, cartographic representation, and basic skills needed to use and understand geospatial data. Prerequisite: GEOG 101 or consent of instructor.

GEOG 223 PHYSICAL GEOGRAPHY APPLICATIONS (3)
Fundamental concepts explored through laboratory exercises, including earth-sun relationships, weather and climate systems, and landform characteristics. Prerequisites: GEOG 101 and GEOG 221.

GEOG 232 INTRO TO GEOGRAPHIC INFORMATION SCIENCE (4)
Study and use of selected computer hardware and software for the storage, retrieval, manipulation, analysis, and display of geographic data. Emphasis on practical applications of geographic information systems (GIS). Prerequisite: GEOG 221 or consent of instructor.

GEOG 251 INTRODUCTION TO URBAN PLANNING (3)
The sequential origins of planning and urban design, a study of contemporary urban planning practice, and an analysis of the social, economic and political context of plan formulation and implementation. Core: Metropolitan Perspectives.

GEOG 270 TOPICS IN PLANNING AND GEOGRAPHY (3)
Investigation of various geographic and planning issues. Emphasis on analytical skills through readings and research design. Topics to be announced. May be repeated for a maximum of 6 units provided a different topic is covered.

GEOG 315 GEOMORPHOLOGY (4)
Detailed analysis of the formation, surficial characteristics, and global distributions of the earth’s landforms. Labs emphasize interpretation of landform assemblages through use of topographic maps and aerial photographs. Cannot be taken for credit by students who have received credit for PHSC 222 or GEOG 371. Prerequisites: 6 units of geography and/or geology, including either GEOG 101 or GEOL 121.

GEOG 317 ENERGY RESOURCES (3)
Spatial patterns of traditional and alternative forms of energy will be analyzed. The many facets of the energy problem will be analyzed including physical deposits, economic variables, public policy implication, and geographical patterns. Prerequisite: 6 units of geography or consent of instructor.

GEOG 319 SOILS AND VEGETATION (3)
A resource study of the world’s soils and plant formations with emphasis placed upon their genesis and spatial differentiations. Prerequisites: GEOG 101 and one of the following: CHEM 101, BIOL 200/BIOL 200L (BIOL 201), or BIOL 205.

GEOG 321 INTERPRETATION OF AERIAL PHOTOGRAPHS (3)
Reading and interpretation of aerial photographs. The application of the aerial photographs in the fields of geography, geology, and photogrammetry. Prerequisite: GEOG 232.

GEOG 323 CARTOGRAPHY AND GRAPHICS I (3)
Study in design, construction, and effective application of maps and charts for analysis and publications; practical exercises in the use of cartographic tools, materials, and techniques. Prerequisite: GEOG 232 or consent of instructor.

GEOG 329 GEOFHEROEOGRAPHIES OF HEALTH (3)
Interrelationship between health and our social and physical environments. Emphasis on geographic approaches to inequalities in health, well-being and care. Prerequisite: 6 units of geography.

GEOG 341 TECHNIQUES AND MATERIALS FOR GEOGRAPHY TEACHERS (3)
A systematic review of geographic concepts in relation to interdisciplinary studies in the physical and social sciences. Examination of the content of geography and problems of presentation.

GEOG 355 HISTORICAL GEOGRAPHY OF URBANIZATION (3)
Spatial and temporal development of urbanization and urban morphology from the rise of civilization in the ancient Near East to the contemporary post industrial city. The entire scope of urban functions is surveyed, with the emphasis on the city as a human-made environment. Prerequisite: 6 units of geography or consent of instructor.

GEOG 356 GEOGRAPHY OF CRIME (3)
Application of geographical methods and procedures to the study of environmental criminology. Explores socio-spatial and environmental data pertaining to crime, victimization, and offenders at the neighborhood, metropolitan, state and national levels. Prerequisites: GEOG 102 or GEOG 105 or GEOG 109.

GEOG 357 CULTURAL GEOGRAPHY (3)
Study of origins and diffusion of cultures and the resulting impact in creating the world’s contrasting cultural landscapes. Prerequisite: 6 units of geography or consent of instructor.
GEOR 358 FEMINIST GEOGRAPHIES (3)
Exploration of key works of feminist critique and of the geographies of
women and gender; impact of feminism across the discipline of
geography. Prerequisite: 6 units of geography or consent of instructor.

GEOR 359 ECONOMIC GEOGRAPHY (3)
Designed to explain the location of economic activities through a series
of principles and theories. Emphasis is on the various sectors of
the economy, transportation, and economic development. Prerequisite: 6
units of geography or consent of instructor.

GEOR 363 SPAT ORGN EC ACT (4)
Provides an intermediate level coverage of the organization of the economy
of space. Draws from basic regional economics to illustrate and
explain the geographical patterns of land use, industry, service activities,
and regional patterns of economic development.

GEOR 373 CLIMATOLOGY (3)
Analysis of the character, causes, and global distribution of climatic
types, chiefly employing the Koppen classification system. Prerequisite: 6
units of geography or consent of instructor.

GEOR 375 QUANTITATIVE METHODS IN GEOGRAPHY (3)
Focus on statistical problems associated with the analysis of geographic
data. Emphasis on the unique spatial problems of point pattern analysis,
area association, and regionalization. Prerequisite: qualifying score on
Math Placement exam or MATH 100 (recommended) or MATH 102 or
higher (except MATH 204).

GEOR 376 QUALITATIVE METHODS (3)
Introduction to qualitative methods. Research design, ethical and
procedural considerations, data collection methods, data analysis.
Prerequisites: 6 units of geography are recommended, or consent of
instructor.

GEOR 377 METEOROLOGY (3)
Examines the composition and structure of the atmosphere,
thermodynamic processes, forces and related small- and large-scale
motions, air masses, fronts, tropical cyclones, solar and terrestrial
radiation, general circulation and weather forecasting. Field work may
be required. Prerequisite: 6 units of natural science or geography or the
equivalent.

GEOR 381 POLITICAL GEOGRAPHY (3)
Effect of political groupings upon human use of the world, and the
influence of the geographic base upon political power. Prerequisite: 6
units of geography or consent of instructor.

GEOR 383 NATURAL RESOURCES AND SOCIETY: A GEOGRAPHIC
PERSPECTIVE (3)
Social and environmental dimensions of natural resources, their
management, and misuse from a geographic perspective. Requires grade
of C or better to fulfill Core or GenEd requirement. Prerequisites: ENGL
102 or ENGL 190, 6 units of geography. Core: Advanced Writing Seminar
or GenEd I.D.

GEOR 385 POPULATION GEOGRAPHY (3)
General population theory, data sources for population geographers, and
the processes of fertility, mortality, and migration. Patterns of population
growth and change viewed from both temporal and geographical
perspectives. Prerequisite: 6 units of geography or consent of instructor.

GEOR 391 URBAN SYSTEMS (3)
Survey of the structure, functions, forms and development of urban units.
Emphasis upon the locational features of social, economic, and cultural
phenomena. Field work. Prerequisite: 6 units of geography or consent of
instructor.

GEOR 393 TRANSPORTATION AND INFRASTRUCTURE PLANNING (3)
Transportation, water supply, wastewater treatment, and solid waste
management systems, their role in the growth and development of urban
areas. Policies, programs, and infrastructure planning. Prerequisite: GEOR
391 or consent of instructor.

GEOR 399 GEO LIT & SRC MAT (3)
Library access to texts, graphics, maps, photos, the Internet and the
World Wide Web. Not open to students who successfully completed
GEOR 299.

GEOR 401 GROWTH OF GEOGRAPHIC THOUGHT (3)
History, nature, and methodology of geography as a discipline. Analysis
of schools of geographic thought; critical evaluation of important
geographic work, skills of written, visual, and oral presentation. Requires
grade of C or better to fulfill Core or GenEd requirement. Prerequisites:
ENGL 102 or ENGL 190, junior standing, plus 6 units of geography. Core:
Advanced Writing Seminar or GenEd I.D.

GEOR 405 COMPREHENSIVE PLANNING (3)
The integration of separate urban systems into the comprehensive
design of an urban region. Special emphasis will be placed on
neighborhood, community and town planning. Fieldwork may be required.
Prerequisite: GEOR 391 or equivalent and consent of instructor.

GEOR 407 THE GEOGRAPHY OF THE AGED (3)
The aged have emerged in contemporary society as a significant
minority group. Elements responsible for the increase in the number
of older Americans will be examined as well as the forces affecting
the distribution of the aged. Particular emphasis will be given to the
locational problems of older people in urban areas. Prerequisite: 6 units
of geography or consent of instructor.

GEOR 409 APPLIED CLIMATOLOGY (3)
The effects of world climatic patterns on the human and physical
environment are analyzed. Special emphasis is devoted to the
interactions between climate and the urban environment. Prerequisite:
GEOR 373, GEOR 377 or consent of instructor.

GEOR 410 ENVIRONMENTAL GEOGRAPHY (3)
Energy, water, and mass budgets at the surface of the earth.
Prerequisites: GEOR 101 and 3 units from one of the following disciplines:
BIOL, CHEM, PHSC, PHYS, or GEOL.

GEOR 411 STUDIES IN NATURAL HAZARDS (3)
The nature, frequency of occurrences, and distribution of environmental
hazards and their impact on humans. Prerequisite: 6 units of geography
or consent of instructor.

GEOR 413 SEVERE AND HAZARDOUS WEATHER (3)
Extreme atmospheric events and phenomena; case study analysis of
atmospheric events that shaped history, geography, and environment;
scientific explanation of extreme atmospheric event occurrence.
Prerequisite: GEOR 101, GEOL 357, or GEOR 377.

GEOR 414 GIS APPLICATIONS (3)
Vector-based GIS software for solving real world problems. Prerequisite:
GEOR 412 or consent of instructor.

GEOR 416 PRINCIPLES OF REMOTE SENSING AND DIGITAL IMAGE
PROCESSING (3)
Obtaining quantitative information from remotely sensed images;
visual and automated techniques in study of spatial and environmental
relationships. Prerequisite: GEOR 232.
GEOG 417 OUTDOOR RECREATION AND PLANNING MANAGEMENT (3)
A study of outdoor recreation in terms of relationships between people, land, and leisure. Emphasis on the principles of planning, designing and maintaining outdoor recreation areas and facilities. Prerequisite: 6 units of geography or consent of instructor.

GEOG 419 CLIMATE CHANGE: SCIENCE TO POLICY (3)
A survey of past, current, and future climate change. Emphasis on Earth’s radiation balance, causes of climate change, observed and predicted signals of climate change, and impacts and mitigation of climate change. Prerequisite: 6 units of geography or natural science or consent of the instructor.

GEOG 420 GEOGRAPHY OF THE UNITED STATES AND CANADA (3)
Physical and cultural landscapes of the United States and Canada, including patterns of economic development of each region and their relationship to their environmental setting. Prerequisite: 6 units of geography or consent of instructor.

GEOG 423 GEOGRAPHY OF MARYLAND (3)
Physical and human geographical elements of the Maryland landscape which explain current patterns and environmental problems. Particular emphasis on historical geographical background of the present landscape. Prerequisite: 6 units of geography or consent of instructor.

GEOG 424 HISTORICAL GEOGRAPHY OF ATLANTIC CANADA (3)
The development of the Atlantic Provinces is followed through to the period of Confederation in 1867 with emphasis on the pivotal role the area played in the geopolitical interests of France and Britain in North America. Prerequisite: 6 units of geography or consent of instructor.

GEOG 426 GIS DATABASE DESIGN (3)
Introduction to Geographic Information System (GIS) databases. System design, database design and implementation. Data requirements gathering and design principles. Prerequisites: GEOG 221 and GEOG 232.

GEOG 427 THE GLOBAL ECONOMY (3)
Geographical patterns of spatial interactions in the global economy; roles of the state, transnational corporations, and intergovernmental organization. Prerequisite: 6 units of geography or consent of instructor.

GEOG 428 PYTHON SCRIPTING FOR ARCGIS (3)
Python programming and scripting techniques for GIS. Fundamentals of Python, basic geoprocessing in GIS, key modules of ArcPy for mapping and spatial analysis, skills required to design script tools for ArcGIS. Prerequisites: GEOG 232 or equivalent skills, or instructor consent; GEOG 414 recommended.

GEOG 431 GEOGRAPHY OF AFRICA (3)
A systematic and regional approach to the study of people and environment of Africa, south of the Sahara. Special focus is placed on the distribution of natural resources and the historical-political development of each country as important background for the understanding of current African affairs. Prerequisite: 6 units of geography or consent of instructor.

GEOG 443 GEOGRAPHY OF EAST ASIA (3)
Regional studies of the physical and cultural foundations in China, Japan, and Korea. Emphasis upon human and economic resources, and role in world affairs. Prerequisite: 6 units of geography or consent of instructor.

GEOG 444 GEOGRAPHY OF SOUTH ASIA (3)
Survey of the physical and cultural geographies of Pakistan, India, Bangladesh, Nepal, Bhutan, Sri Lanka and the Maldives. Thematic and regional approaches are applied in the study of the cultures, politics, environments, social structures, and economies of the South Asian Subcontinent.

GEOG 445 GEOGRAPHY OF SOUTHEAST ASIA (3)
Regional analysis of Southeast Asia: physical geography, historical evolution, industry and agriculture, social and cultural factors, and role in world affairs. Problems of nationality, economic development, gender and cultural conflicts. Prerequisites: 6 units of geography or consent of instructor.

GEOG 447 GEOGRAPHY OF THE MIDDLE EAST (3)
Analysis of Southwest Asia and North Africa, including major natural and cultural resources, related patterns of spatial organization, economic and political development, and associated problems. Prerequisite: 6 units of geography or consent of instructor.

GEOG 451 GEOGRAPHY OF EUROPE (3)
Regional analysis and appraisal of the human geography and natural resources of Europe. Problems of nationality, economic development, and cultural conflicts. Prerequisite: 6 units of geography or consent of instructor.

GEOG 452 GEOGRAPHY OF THE EUROPEAN UNION (3)
Spatial distribution of physical and cultural features of the European Union. Historical development of the EU. Geographical aspects of major issues facing the EU: security, enlargement, foreign policy, structure, identities. Prerequisite: GEOG 102 or GEOG 105 or consent of instructor.

GEOG 453 GEOGRAPHY OF RUSSIA (3)
Diverse human and physical geographical aspects of Russia's complex historical and contemporary development and its relationships with its neighbors. The interrelationships between people and their environments - physical, social, economic, political, demographic, and cultural - are considered. Prerequisite: 6 units of geography or consent of instructor.

GEOG 454 RETHINKING BRAZIL (3)
Regional analysis of Brazil: human and physical geography, historical perspectives, humanities, cultural geography, and critical thinking of Brazil in its role as regional and global participant. Perspectives on the problematization of national, racial, and regional identities, and of historical legacies upon Brazil today. Prerequisite: GEOG 102 or GEOG 105 or GEOG 109.

GEOG 461 GEOGRAPHY OF LATIN AMERICA (3)
Analysis of Latin America focuses on the interrelationships between physical and cultural elements which provide a diversity of human habitats throughout the region. May be repeated for a maximum of 6 units. Prerequisite: 6 units of geography or consent of instructor.

GEOG 462 THE TWO DOWN-UNDERS: GEOGRAPHIES OF AUSTRALIA AND AOTEAROA-NEW ZEALAND (3)
Analysis of the physical and cultural landscapes of Australia and Aotearoa/New Zealand, including patterns of settlement and economic development and the relationship of these patterns to their environmental settings. Emphasis on the historical backgrounds of these countries' present landscapes. Prerequisites: 6 units of Geography or consent of the instructor.

GEOG 463 THE SILK ROAD: THE GEOGRAPHIES OF CENTRAL EURASIA (3)
Central Asian geographies and histories in the context of the extended Silk Road Region; its cultural identities, political economies, and ideological struggles; the bonds and interactions of the emerging nations of Central Asia with Russia, the U.S., China, Turkey, and Iran. Prerequisites: Completion of GenEd II.D.; GenEd I.D.; or consent of instructor.
GEOG 465 ADVANCED TECHNIQUES IN GIS (3)
Project-based learning within the spatial framework of GIS. Emphasis on advanced GIS techniques for spatial analysis and on quantifying geographic patterns and relationships. Prerequisite: GEOG 232.

GEOG 470 SPECIAL TOPICS IN GEOGRAPHY (1-3)
Reading and research in selected topics in the field of geography. Seminar topics will be announced. May be repeated provided a different topic is taken each time.

GEOG 471 GEOSPATIAL TECHNOLOGIES SPECIAL TOPICS (1-3)
Reading and research in selected geospatial technological topics in the field of geography. Seminar topics will be announced. May be repeated for a maximum of 6 units provided a different topic is covered.

GEOG 472 SPECIAL TOPICS IN SPACE AND SOCIETY (1-3)
Reading and research in selected topics in the field of geography. Seminar topics will be announced. May be repeated for a maximum of 6 units provided a different topic is covered.

GEOG 473 SPECIAL TOPICS IN ENVIRONMENTAL SYSTEMS AND SUSTAINABILITY (1-3)
Reading and research in selected topics in the field of geography. Seminar topics will be announced. May be repeated for a maximum of 6 units provided a different topic is covered.

GEOG 481 ENVIRONMENTAL IMPACT ANALYSIS (3)
The collection, collation, analysis, and incorporation of physical, social, biological, and economic information for the reviewing and the preparing of environmental impact statement (EIS) reports. Prerequisite: 6 units of geography or consent of instructor.

GEOG 484 LAND USE PLANNING (3)
Contemporary land use planning, emphasizing the problematic nature of land development, the environmental land use planning process, and related growth management, issues and techniques. Prerequisite: GEOG 251 or consent of instructor.

GEOG 491 GEOGRAPHY/ENVIRONMENTAL PLANNING INTERNSHIP (1-6)
Supervised placement and research in selected public and private agencies at appropriate institutions. May be repeated for a maximum of 6 units. Prerequisite: 6 units of geography and consent of department chair.

GEOG 493 FIELD GEOGRAPHY (2-6)
Practical laboratory experience in techniques in the collection and analysis of data by observations, measurements, mapping, and photographic records. Such techniques are to be applied to selected geographic problems. Prerequisite: 6 units of geography or consent of instructor.

GEOG 494 TRAVEL AND STUDY (3-6)
Countries and topics to be selected by departments and instructors sponsoring the program. For complete information, contact the chair of the department. May be repeated for a maximum of 6 units.

GEOG 495 DIRECTED READINGS IN GEOGRAPHY (3)
Independent reading in selected areas of geography. Open by invitation of the Geography Department to students taking a major or minor in geography. May be repeated for a maximum of 6 units.

GEOG 496 INDEPENDENT STUDY IN GEOGRAPHY (1-6)
Independent research, study, or field experience under supervision of a member of the Geography faculty. Designed for advanced students who wish to conduct independent investigations on aspects of Geography which are of special interest or not covered in other courses. Registration arranged with department chairperson. May be repeated for a maximum of 6 units. Prerequisite: advanced undergraduate standing with at least 18 units of geography or graduate standing.

GEOG 498 HONORS DIRECTED READINGS (3)
Independent reading in Geography and related disciplines on a topic selected by the student in consultation with the instructor(s). May be repeated for a maximum of six units. Prerequisite: Admission to the Honors College course.

GEOG 499 HONORS THESIS IN GEOGRAPHY (1-6)
Researching and writing of a thesis, to be directed by a faculty member in a chosen area of specialization. May be repeated for a maximum of 6 units. Prerequisite: Admission to the Honors College course.
